

# Sharing the love for MyLense Photography Studio

Just a few of the lovely words from our clients, about their experience with our studio and photographer.....

## Jonece Close

Hi Geraldine. We absolutely love the photos and album!! Thank you so much and the photos are more beautiful than we could have imagined.

## Angela Albertini

Thank you Geraldine for the beautiful photo book of Nick's formal...the photos are just gorgeous! Every photo is wonderful and it is so nice to have them all together in the one book. The quality of the book is amazing and it will be greatly treasured - it's such a beautiful memory to have. I highly recommend the photo book as a beautiful keepsake for any special occasion. Great work as always! 😊 xx

Geraldine went above and beyond in looking after us before and after the birth of our first child, Maisy. She also took Maisy's first Santa photo, which is very exciting.

Geraldine was very calm, organised and professional in making sure that we were happy with her photographing and holding Maisy while positioning her. Her photographs were of the highest quality and the album was just gorgeous. Geraldine even went out of her way to take photos of our family as we had five generations of family on both sides at the time of Maisy's birth. This was very special and very lucky as two days after these photos were taken, my 101 year old great grandmother sadly passed away.

She also very kindly took time out of her day and delivered the photographs to my 91 year old great grandma's house where I was today because I wasn't at home, which was lovely as we had time to look at them together. I would highly recommend Geraldine's services to anyone in need of great photos for memories.
